

CAPE ANN FRESH CATCH

COMMUNITY SUPPORTED FISHERY

LOCAL, SUSTAINABLY-CAUGHT, WICKED-FRESH SEAFOOD

What's the Cape Ann Fresh Catch Community Supported Fishery?

The Cape Ann Fresh Catch (CAFC) Community Supported Fishery (CSF) works together with our local fishermen along with shore-side operations and delivers fresh seafood to our seasonal shareholders. Shareholders join the program by purchasing a share for a season. Each week at a designated delivery site, shareholders pick up their shares of fresh seafood. We're just like a CSA, only with seafood—a CSF.

This arrangement benefits our local fishermen, the environment, our local economy, and you—the shareholder. Fishermen get a higher price for their catch than through traditional buyers at the dock. The environment benefits because the distance travelled and the carbon footprint to put dinner on your plate are greatly reduced. The local economy benefits by keeping all costs involved locally-based. And you—the shareholder—get the freshest and highest quality seafood available. ...continues
